## 空壓電熱上領記號機

### LN-2003 MARK DRILL MACHINE

TO MARK CENTER AND SHOULDER POSITIONS ON SHIRT COLLARS.

#### Features:

- Twin needle-heater designed to make three marks, simultaneously, quickly and accurately.
- Adjustable heater to allow for different kinds of fabric.
- Easy to operate, 3 replaceable drills are applicable to various material.

#### Operate:

Marking is easily made by the pneumatic cylinder of the machine. An operator folds a collar part at its center, sets it to the machine, and steps on the foot pedal to make needle marks.

Thus, uniform marking can be made accurately with far better efficiency. The machine permits an easy change of marking points as well as clear marking with two needles. It is most suited to the three-point marking of collars and collar bands of dress shirts, blouses, etc.

#### LN-2003之特點：

1. 可調式之電熱雙針特殊裝置，可同時在衣領中間及旁邊做兩點記號，以便即時將領縫在襯衫上，準確度為百分之百省卻一般人工用剪刀做記號，並省卻另一道用筆再做記號之手續。
2. 電熱可依不同布料做適度調整。
3. 由於採用空壓式之動作祇需用腳踏開關輕輕一踏，不但省卻人工且大大提高生產量。
4. 特製粗、中、細三種尺寸電熱針，更換容易適合各種布料。
